## Horizon Mobile App

Crisis24's Horizon Mobile app is a solution that enables you to stay informed of worldwide threats and disruptions that could impact the safety and security of your interests and operations. The following Horizon Mobile app features are designed to meet your risk management needs and support your entire organization.

**Alerts → Stay Aware of Threats Globally**

**Location Intelligence → View the Global Risk Landscape**

**Advice Sheets → Access Expert Guidance to Mitigate Risks**

**Map → Examine Long-Form Security and Geopolitical Content**

**Customization → Establish preferred settings, locations, and links**

---

## System Compatibility

Crisis24's Horizon Mobile app is available on all mobile devices and available for download from the [iOS App Store](#) and [Android Google Play Store](#).

# Features

## Location Intelligence

Location Risk Ratings are available for 200+ countries, 800+ provinces, and 400+ cities, with ratings assessed on a 1-5 scale, in 0.25 increments. Users have access to overall ratings, as well as risk ratings for specific categories (security, infrastructure, health and medical, and political). View the location details to examine the intelligence that informs the ratings.

## Alerts

Crisis24 expert analysts work around the clock to identify, assess, and report on worldwide threats. Active and inactive alerts are available to view in the Horizon Mobile app.

Users may select specific alerts to view the Alert Details and examine the alert summary, advice, and additional resources.

## Map

The Map feature is an interactive view of Alerts and Location Intelligence Ratings on a map of the world. Access the map options to change location, filter map contents, change map style, and manage your saved locations.

## Advice Sheets

Advice Sheets are standing content on various subjects. Access Advice Sheets to use as references for different situations or events that you may encounter.

# Customization

## Registration Options

Choose from multiple registration options for trouble-free accessing, including federated single sign-on (FSSO), member ID self-registration, and via organization email domains.

## Quick Connect Assistance Buttons

Display quick connect assistance buttons for local emergency contacts and the Crisis24 Hotline.

## Useful Links

Customize the app to provide important links for your people, such as access to organization policies and procedures, or special announcements.

## Branding

Custom branding with your logo creates instant recognition that the app is an integral part of your risk management program.

## Multiple Languages Supported

Horizon Mobile is available in multiple languages, including English, French, Spanish, German, Italian, Traditional Chinese, Simplified Chinese, Japanese, Portuguese, Dutch, Russian, Polish, and Hindi.
